

QUOTATIONS FOR THE BELLS OF ST.BRIDGET'S CHURCH, BRIGHAM

Quotation No.1

To restoring the bells for swing chiming in a traditional manner, in the existing frame; to consist of removing the bells for restoration at the bell foundry; the cast in crownstaples to be drilled out; a centre hole to be made for the provision of fitting an independent crownstaple; new hardwood headstocks with ball bearings, gudgeons, and traditional supporting iron work to be made; swing chime levers, clappers, ropes and pullies to be provided. The bells to be delivered and rehung.

We undertake to do the above work for **£19,356.00** plus VAT. (if local help can be provided, i.e. Ron East & helper, we could allow a reduction of £3,225.00 from the above figure).

Quotation No.2

To restoring the bells for full circle ringing in a traditional manner, in a new bellframe lower in the tower; to consist of removing the bells for restoration at the bell foundry; the cast in crownstaples to be drilled out; a centre hole to be made for the provision of fitting an independent crownstaple; new cast iron headstocks with ball bearings, gudgeons, and all full circle fittings, wheels, clappers, ropes and pullies to be provided. The bells to be delivered and rehung.

We undertake to do the above work for **£41,062.00** plus VAT. (if local help can be provided, i.e. Ron East & helper, we could allow a reduction of £5,528.00 from the above figure).
